Terminology

The following are definitions of the terms frequently used in the discussion of tax rates.

Levy: The tax levy (or levy) is the amount of property taxes to be raised. The levy amount is determined by the budget. The total amount of the approved budget less revenues from other sources like motor vehicle excise, municipal fees, and state aid is the amount to be raised from property taxation. The town will be raising \$6,134,092 in property tax revenues.

Levy Ceiling: The levy ceiling is 2.5 percent of the full value of the Town. Based on the Shutesbury aggregate valuation of \$378,799,063, the town cannot levy taxes more than \$9,469,977.

New Growth Revenue: Property taxes derived from newly taxable properties like new construction, additions, subdivisions, and personal property. The assessors have tabulated new growth revenues of \$47,803.

Levy Limit: Also referred to as the “maximum allowable levy”, this is calculated by adding 2.5 percent of the previous year’s levy limit plus new growth revenue for the present fiscal year to last year’s levy limit. Exceeding the levy limit requires an override of Proposition 2 ½. For Fiscal Year 2026 the levy limit is \$6,717,526.

Excess Levy Capacity: Excess levy capacity is the difference between the levy and the levy limit.

New growth revenue	47,803
Excluded Debt to Pay Bonds	34,039
Fiscal year 2026 levy limit	6,717,526
Levy Ceiling	9,469,977
Levy to be raised	\$6,134,092
Excess levy capacity	\$617,472

Valuations by Class Before Tax Shift

<u>Major Property Class</u>	<u>Valuation</u>	<u>Percent</u>	<u>Res vs CIP%</u>
Residential	355,371,275	93.8152	93.8152
Commercial	2,055,288	.5426	
Industrial	1,222,100	.3226	6.1848
Personal Property	20,150,400	5.3196	
TOTAL	378,799,063	100.0000	

Shifting the Tax Burden

Municipalities with a large commercial/industrial tax base often see fit to shift the tax burden to help maintain lower residential taxes. Given Shutesbury's relatively small commercial, industrial, and personal property tax base, it takes a CIP tax rate increase of approximately 6.5% to yield a 1% residential tax rate reduction.

The estimated single tax rate for fiscal year 2026 is \$16.19 per thousand valuation.

Commercial	\$15.80	\$16.19

Board of Assessors Recommendation

The Board of Assessors recommends that the Select Board adopt a split tax rate to be applied to residential properties in Shutesbury to reflect the Circuit Breaker Exemption.

Voting a Tax Shift Factor (proposed motion)

The Shutesbury Select Board votes in accordance with M.G.L., Ch. 40, Sec. 56, as amended, the percentage of local tax levy which will be borne by each class of real and personal property, relative to setting the Fiscal Year 2026 tax rates and set the Residential Factor at 1.0, with a corresponding CIP shift of 1.0, pending approval of the town's annual tax recap by the Massachusetts Department of Revenue.
