

Dear Shutesbury Residents:

Here are the weekly Covid numbers:

Currently no one is known to be in strict isolation. Four people are known to be in the less-strict isolation period (days 6-10). In the two-week period between May 26 and June 8, there were eight known cases.

Community transmission is rated “high” in Franklin County and “medium” in Hampshire County.

Please remember to inform the Board of Health if you test positive using a home test kit.
