

Shutesbury Board of Health  
May 4, 2022, 7 pm

Present: Catherine Hilton, chair; Wm Levine, Norene Pease, Garrett Simonsen, board members.

Minutes of previous meeting were approved.

In opening zoom for this meeting, Garrett noted that the town's zoom payment is overdue.

Norene gave an update on the Public Health Excellence Grant application, which has been submitted. Shutesbury has requested some time from a social worker, public health nurse, epidemiologist, and consultant on contamination issues such as mold and radon.

The application to opt out of any large-scale pesticide spraying by the state is due May 27. Wm expressed willingness to help with this. Cat has requested a meeting with the Select Board, which is a requirement of the application, and will start putting the application together and sending it to board members for their input. Norene will look into messaging used by other towns. Possible mailing if our line item would cover it.

Annual Town Meeting – reiterated our plans for setup. Cat will make a sign requesting masking inside and ask Grace about a special tent where masks are required.

Adjourn 7:25
