

LAKE WYOLA ADVISORY COMMITTEE

-Approved Minutes

March 20, 2021 at 10:00 AM

Via Zoom

Members Present: John Gorey, Catherine Hilton, April Stein, Terry Smith, and Mark Rivers
Guest: Josh Kingsbury

1. The minutes from the December 5, 2020, meeting were reviewed and approved.
2. Update on the Storm Water Committee request letter

On December 5, 2020, we requested that a committee be formed to study problems of road runoff throughout town. The subject was discussed at the 12/22/2020 Select Board meeting and it was asserted that the “Town has no legal standing to work on these roads as proposed by the LWAC.” However, our request was not for the town to work on the Association roads but rather to form a committee to study the issue and look at other funding sources with the primary goal to protect the lake. To clarify our request, Catherine offered to draft a second letter that would be sent to the SB.

3. Safety Plans for the State Park

Committee members expressed concerns about parking, traffic, and swimming safety issues and the hopes that problems experienced in 2019 would not be repeated. No one was aware of any DCR plan. In 2020 there was a shortage of lifeguards because training classes were canceled due to the pandemic. Terry will investigate if DCR-sponsored lifeguard training will be conducted this year.

4. Update on the Locks Pond Rd Culvert Replacement

Mark will invite Becky Torres to provide an update at our next meeting.

5. Goose Egg Addling permit for 2021

Mark filed the 2021 application for the 2021 Goose Egg Addling permit

The next LWAC meeting is scheduled for April 17, 2021

Meeting ended at 11:00
